

# Connex Offsite supply 749 bespoke bathroom pods to the Royal Eden Dock Phase 2

**Project Title:** Royal Eden Dock Phase 2

**Client:** Excel/Mount Anvil

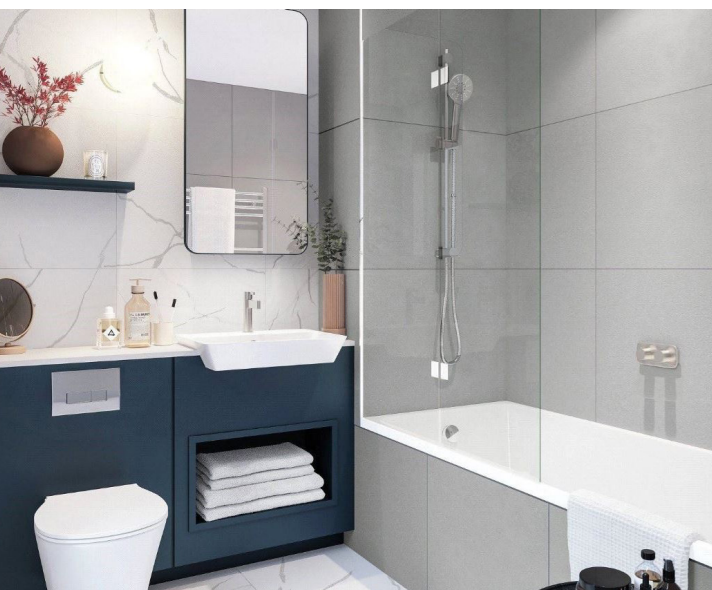

**Contractor:** Mount Anvil

**Sector:** Private residential

**Location:** Excel, London

**No of Pods:** 749

**Practical Completion:** Q3 2023

## Project Description:

Demolition of existing buildings and redevelopment of the site to comprise the delivery of 796 residential flats and set within buildings up to ground plus 22 storeys in height, with associated car and cycle parking, landscaping, amenity spaces and other associated works.

**Bepoke steel frame bathroom pods have been designed and manufactured by Connex for this project. First fix connections and future maintenance is all done via access panels inside the bathroom pod, this is due to design restrictions to access the riser area externally.**

## About Connex Offsite:

Connex Offsite Limited is part of a family-owned group of companies which employ over 350 people with a turnover of £45million as a group.

Innovative design in light gauge steel pods, combined with manufacturing excellence and a high level of construction knowledge allow Connex Offsite to deliver products that constantly exceed customer expectations. Excellence in service delivery measured as cost, quality, and engineering in finished bathroom pods, combined with design flexibility is why Connex Offsite are a leading UK supplier of bathroom pods.
